CLAIM

The ornamental design for a motorcycle wind screen, as shown and described.

DESCRIPTION

FIG. 1 is a front view of a motorcycle wind screen.

FIG. 2 is a right side view of a motorcycle wind screen.

FIG. 3 is a left side view of a motorcycle wind screen; and,

FIG. 4 is a perspective view of a motorcycle wind screen from a lower perspective illustrating the shape of the windscreen in and out of the plane perpendicular to the front view of FIG. 1.

The motorcycle wind screen is of a thin material thickness throughout and thus the rear view would be an inverse view of the front view.
