CLAIM

The ornamental design for a closure cap for a container, as shown and described.

DESCRIPTION

FIG. 1 is a perspective view of a closure cap for a container showing one embodiment of our new design.

FIG. 2 is a front elevational view thereof; the rear elevational view, the right side elevational view and the left side elevational view all being the same as the front elevational view;

FIG. 3 is a top plan view thereof;

FIG. 4 is a bottom plan view thereof;

FIG. 5 is a cross-sectional view taken along line 5-5 in FIG. 3;

FIG. 6 is a cross-sectional view taken along line 6-6 in FIG. 3.

FIG. 7 is a perspective view of a closure cap for a container showing another embodiment of our new design.

FIG. 8 is a front elevational view thereof; the rear elevational view, the right side elevational view and the left side elevational view all being the same as the front elevational view;

FIG. 9 is a top plan view thereof;

FIG. 10 is a bottom plan view thereof;

FIG. 11 is a cross-sectional view taken along line 11-11 in FIG. 9; and,

FIG. 12 is a cross-sectional view taken along line 12-12 in FIG. 9.

The broken lines showing the interior threading illustrate unclaimed portions of the article and form no part of the claimed design.
