CLAIM

The ornamental design for a H style arcuate divider matrix sleeve, as shown and described.

DESCRIPTION

FIG. 1 is a front elevational view showing my new design for a H style arcuate divider matrix sleeve in environmental use; FIG. 2 is a front top perspective view; FIG. 3 is a top plan view which is a mirror image of the bottom plan view; FIG. 4 is a front elevational view; FIG. 5 is a right side elevational view which is a mirror image of the left side; and, FIG. 6 is a rear elevational view.

The broken lines shown represent unclaimed subject matter and form no part of the claimed design.

The H style divider matrix sleeve has been shown broken to indicate indeterminate length. The claim is definite under 35 U.S.C. 112 second paragraph with the understanding that the "indeterminate" portion of the article forms no part of the claim design. Patentability is based only on those portions of the H style divider matrix sleeve that are shown in solid lines.
