CLAIM

The ornamental design for an electronic device housing for a touch screen register, as shown and described.

DESCRIPTION

FIG. 1 is a top front perspective view of an electronic device housing for a touch screen register showing our new design; FIG. 2 is a front view thereof; FIG. 3 is a rear view thereof; FIG. 4 is a right side view thereof; FIG. 5 is a left side view thereof; FIG. 6 is a top view thereof; FIG. 7 is a rear perspective view thereof; FIG. 8 is a right side view thereof, shown with the touch screen in another position of use; and, FIG. 9 is an exploded view of FIG. 1 showing the cover of the touch screen removed and an environmental electronic device such as a touch screen tablet which may be used with the touch screen register of the present invention. The broken lines in the Figures show unclaimed portions of the electronic device housing for a touch screen register and an exemplary electronic device, and form no part of the claimed design.
